### A Brief History of PARCS

The Provincial Association of Resort Communities of Saskatchewan (PARCS) was founded in 1983 as a working group who recognized the need for a collective voice for issues relating specifically to cottage communities in Saskatchewan. The working group evolved into a committee under SUMA and, in **1986**, PARCS gained its official status and name. PARCS has held its

general meeting annually since 1987. PARCS is an independent lobby organization and continues to represent **cottage associations, resort villages, organized hamlet cottage communities, and RMs containing cottage communities** with all levels of government and with SUMA and SARM. PARCS Mission Statement asserts that ***we support and represent the interests of cottage communities of Saskatchewan at a local, provincial, and federal level.***
