PART I

SECTION 1 - INTRODUCTION

1.1 Title

This bylaw shall be known as the “Zoning Bylaw No. 234/11 of the Rural Municipality of McKillop No. 220”.

1.2 Scope

All development within the limits of the municipality shall be in conformity with the provisions of this bylaw. The words “shall” or “will” identify a mandatory action or decision, as the case may be. The words “should” or “may” identify a voluntary action or decision, as the case may be.

1.3 Severability

If any part of this bylaw, including anything shown on the zoning district map, is declared to be invalid for any reason, by an authority of competent jurisdiction, that decision shall not affect the validity of the bylaw as a whole, or any other part, section or provision of this bylaw.

SECTION 2 - ADMINISTRATION

2.1 Development Officer

The Rural Municipal (RM) Administrator shall be the Development Officer responsible for the administration of this bylaw.

2.2 Application for a Development Permit

- (1) Every person shall apply for a development permit before commencing any development within the municipality, except as listed in Section 2.2.1.
- (2) The application shall be in the "Form A" as adopted or amended by resolution of council.
- (3) The application shall have attached a layout or site plan as required in the application form or by the Development Officer, together with any other information needed to assess the application.

2.2.1 Development Not Requiring a Permit

- (1) Provided all other provisions of this bylaw (e.g. Section 3.1) are met, including the listing of the following exemptions as a permitted use in the relevant zoning district, ***development permits are not required for the following:***
 - (a) Accessory Farm Uses: Including all farm buildings or structures (except a dwelling or an addition to a dwelling or an Intensive Livestock Operation (ILO) or an addition to an ILO). To qualify for permit exemption, the Accessory Farm Use must be accessory to a lawful agricultural use or existing farmstead within the zoning districts (including the Environmentally Sensitive (ES) Overlay district established by this bylaw, and the use must meet the relevant building setback requirements of the zoning district;
 - (b) Accessory Non-farm Uses: excluding wind turbines for private electrical generation, all non-farm buildings or structures which are no more than 9.3 sq. m. (100 sq. ft.) in size and/or 5.5 m. (18 ft.) tall and which will be accessory to a lawful use within the zoning districts established by this bylaw, provided the use meets the building setback requirements of the relevant zoning district;
 - (c) Linear Public Utilities: Any operation to install, inspect, repair, or renew lines for sewers, potable water, cables, wires, tracks or similar public works as required by a public utility except where the line will cross or lie within the limits of a public road;
 - (d) Municipal Facilities: Any facility installed and operated by the municipality;
 - (e) Signs: Subject to the provisions of Section 3.5;
 - (f) Petroleum or natural gas exploration wells or extraction wells are exempt only where legal and physical access to the proposed well site has been previously approved by RM permit. Related facilities such as storage batteries shall require a development permit.

2.3 Bylaw Interpretation

Metric distances take precedence, since Imperial distances are shown only for ease of interpretation. The Development Officer shall be responsible for bylaw interpretation as part of the administration of this bylaw and the Official Community Plan (OCP).

2.4 Issuing Permits

- (1) Upon completion of the review of a development application, the Development Officer shall:
 - (a) issue a development permit for a permitted use where the application conforms to the bylaw, incorporating any special regulations, performance standards or development standards required or authorized by this bylaw; or
 - (b) issue a notice of refusal, where the application does not comply with a use provision or regulation of this bylaw, and the applicant has been given adequate opportunity to alter the proposal to comply with the bylaw. The notice shall state the reason for refusal; or
 - (c) submit the application to council for decision, where the application is for a discretionary use.
- (2) Council shall make a decision on a discretionary use, by resolution, which instructs the Development Officer to:
 - (a) issue a development permit incorporating any specific development standards which may be established by Council in accordance with the provisions of this bylaw and Section 52(2) of The Planning and Development Act, 2007 (the Act); or
 - (b) require the applicant to provide further information regarding the proposed development of the land of which it is proposed; or
 - (c) issue a notice of refusal to the applicant, where the applicant has been given adequate opportunity to alter the proposal to comply with the bylaw. The notice shall state the reason for refusal.
- (3) The permit or notice shall be in "Form B" as adopted or amended by resolution of council.
- (4) All permits shall expire one year from the date of issuance, and may be extended by the Development Officer for one or more periods to a maximum of two additional years.

2.5 Building Permits, Licences, and Compliance with Other Bylaws

- (1) Nothing in this bylaw shall exempt any person from complying with a building bylaw, or any other bylaw in force within the municipality, or from obtaining any permission required by this, or any other bylaw of the municipality, the province or the federal government.
- (2) A building permit, where required, shall not be issued by the council or its agent for a development unless a required development permit has been issued.

2.6 Development Appeals Board

- (1) Council shall appoint a Development Appeals Board in accordance with Sections 213 to 227 of the Act.
- (2) On "Form B", a development permit or notice of refusal, the development officer shall advise the applicant of the rights of appeal which may be granted by the Act.

2.7 ~~Fees, Advertising and Restrictions on Appeals~~

Restrictions on Appeals

- ~~(1) Amendment of the Zoning Bylaw — Where a person requests that council amend the Zoning Bylaw, that person shall pay to the municipality a fee equal to the costs associated with the public advertisement of the proposed amendment, and any administrative or professional fees incurred by the municipality, in all cases where council chooses to proceed with such advertising. Council may choose not to proceed with the advertising if it concludes that the proposed amendment is unsuitable or unnecessary.~~
- ~~(2) Advertisement of a discretionary use application
 - (a) Prior to making a decision on a proposed discretionary use, council, in its review of the application, shall direct the Development Officer to advertise the application to the public as described below. The notice used in all methods described below shall meet the requirements of Part X of the Act. In making the direction to the Development Officer, council shall require the Development Officer to use one or more of the following methods of advertising:
 - a newspaper ad which shall run at least twice on separate dates; or
 - requiring the applicant to erect a sign on the site proposed for the discretionary use. The size, location and duration of posting of the sign and the wording of the notice on it shall require~~

- the prior approval of the Development Officer; or
- a general mail out to all landowners in any or all divisions of the RM or
- a copy of the application and public notice shall be sent to each landowner whose property adjoins the subject land.

(b) The applicant shall pay to the municipality a fee equal to the costs associated with the public advertisement and the costs of administering and regulating the proposed discretionary use.

~~(3) Application fees – an applicant for a development permit shall pay an application fee in accordance with the fee schedule established by annual review and by a separate bylaw of council. Separate fees may be charged for each type of permit (permitted use, discretionary use, accessory use etc.). These fees shall be in addition to any fee required by subsections (1) and (2) above. The fee schedule shall not include the fee for a Development Appeal, which is regulated by Section 220 of the Act.~~

(1) Appeal of Refusal of Council - As described in Section 219(5) of the Act, there is no appeal of a refusal by council to rezone an applicant’s land or to issue an approval for a proposed discretionary use or a discretionary form of development. Appeals of other decisions of council or the Development Officer are only allowed if authorized by the Act.

(Bylaw No. 342/2018)

2.8 Application of Overlay Zones

- (1) The overlay districts shall be in addition to all other zones where they are applied, so that any parcel of land lying in an overlay district shall also lie in one or more of the other zones provided for by this bylaw. The effect is to create a new zone, which has the characteristics and limitations of the underlying zones, together with the characteristics and limitations of the overlay district.
- (2) Unless specifically exempted, the regulations, standards and criteria of the overlay districts shall supplement and be applied in addition to but not instead of any regulations, standards and criteria applicable to the underlying zone.
- (3) In the event of conflict between the setback regulations or requirements of any overlay district and those of the underlying zone, the overlay requirements shall apply.

2.9 Offences and Penalties

Any person who violates this bylaw is guilty of an offence and liable, on summary conviction, to the penalties set forth in the Act.

2.10 Minor Variances

- (1) Council may grant a variance of up to 10% of any yard requirement or minimum required distances between buildings for a use that conforms to this bylaw. All such variance shall be subject to the conditions and granted in accordance with the procedures contained in Section 60 of *The Planning and Development Act, 2007*.
- (2) Council shall maintain a registry of the location and all relevant details of the granting of such variances.

(4/23/2018 Bylaw No. 341/2018)

SECTION 3 - GENERAL REGULATIONS

The following regulations shall apply to all zoning districts in this bylaw:

3.1 Development on or near Environmentally Sensitive Lands

- (1) Where a proposed development of a new use and any required access driveway is located within an ES overlay district shown on the zoning district map, or within 150 metres of the boundary of an ES district, council may require the applicant to submit sufficient topographic or other information. This will be used to determine if the development will be:
 - within 457 metres of the waste disposal sites shown on the zoning map;
 - within 300 metres of the sewage lagoons shown on the zoning map;
 - within 300 metres of Earthen Manure Storage (EMS) lagoons or runoff retention ponds shown on the zoning map;
 - within 60 metres of any slopes that may be unstable;

- within 60 metres of land that has a high water table;
 - within 60 metres of land that adjoins a permanent waterbody which is shown on the original Township survey(excluding any land adjoining Last Mountain Lake, since those areas are within the ES overlay district);
 - within 60 metres of the flood plain of any river or stream or other land that may be subject to flooding;
 - within 0.8 km of the working or unclaimed face of a gravel pit; or
 - within 300 metres of either of the two (2) existing dairy operations shown on the Constraints map
- (2) If the proposed development will be within 150 m of a public well, or a waterbody used as a potable water supply (regardless of whether the waterbody is shown on the original township survey or created by a private or public dam, which is licensed by the Saskatchewan Watershed Authority {SWA}), the Development Officer may also require additional information from the applicant to ensure that the existing water supplies or the proposed development will not be jeopardized.
- (3) Council may require that before a permit is issued, the applicant shall submit a report prepared by a professional, who is competent to assess the suitability of the site for a development described in clause (1). Council shall use this information to determine if the proposed site and development is suitable with respect to the following:
- the potential for flooding up to a 1:500 flood elevation, or such lower elevation as may be suitable for the proposed use or building;
 - the potential for slope instability;
 - the required mitigation measures to develop in areas of high water table, near public wells or a private or public dam, which is licensed by the SWA; and
 - any information required by council to assess the suitability of a development near the sewage lagoons or waste disposal sites mentioned in subsection (1).
- (4) Identified actions for hazard avoidance, prevention, mitigation or remedy for any development proposed in an ES overlay district may be incorporated as special conditions of a development permit. Where such special conditions conflict with any other regulation of this bylaw, the special conditions shall take precedence. Council shall refuse a permit for any development for which, in council's opinion, the proposed actions are inadequate to address the adverse effects or may result in excessive costs for the municipality, or surrounding landowners.

3.2 One Principal Building or Use Permitted on a Site

Not more than one principal building or use shall be permitted on any one site except for:

- (a) dwelling group
- (b) public utility uses;
- (c) institutional uses;
- (d) agricultural uses, (excluding dwellings allowed in a farmstead);
- (e) accessory uses as specifically provided for in this bylaw; and
- (f) other principal buildings or uses which may be specifically allowed in a Contract Zoning Agreement.

3.3 Mobile Homes

- (1) Wherever a dwelling is allowed, it may be in the form of a mobile home only where the unit is securely attached to the ground to the satisfaction of the Development Officer, prior to occupancy.
- (2) Only mobile homes which are no older than 15 years prior to the date of a permit application being made to the municipality, may be allowed, subject to the other requirements of this bylaw.
- (3) Each mobile home shall comply with the Canadian Standards Association (CSA) document CAN/CSA - 240.2.1-M86 "Structural Requirements for Mobile Homes" (as may be amended or replaced from time to time by the CSA).
- (4) The undercarriage of all mobile homes shall be completely screened from view by the foundation, skirting or other means that is of a manufactured or similar type to harmonize visually with the unit. This foundation or skirting shall permit the circulation of air beneath the unit.
- (5) The total area of all subsequent additions to a mobile home shall not exceed 50 per cent of the area of the original mobile home.
- (6) All subsequent additions, accessory buildings and structures to a mobile home shall equal or exceed the quality and appearance of the mobile home, and shall harmonize with the mobile home's exterior.

3.4 Non-Conforming Buildings, Uses and Lots

- (1) Any lawful use of land, an existing building or of any building lawfully under construction at the date of approval of this bylaw, although such use or building does not conform to the regulations of this bylaw, shall be carried on in accordance with the provisions of Sections 88 to 93 inclusive, of the Act.
- (2) No existing use or building shall be deemed to be non-conforming by reason only of the conversion of the measurements in this bylaw from the Imperial System of measurement to the metric system of measurement where such non-conformity results solely from the conversion and is reasonably equivalent to the metric bylaw regulations.
- (3) No existing site shall be deemed to be non-conforming to the bylaw regulations despite its dimensions or area failing to at least equal the standards prescribed for proposed sites in the zoning district in which it is located. Development proposed on such sites shall still be required to conform to all relevant bylaw regulations.

3.5 Signs and Billboards

- (1) Minor and temporary signs
 - (a) Temporary signs and real estate signs are permitted only as long as the temporary condition exists for the property, in council's opinion.
- (2) Signs along a highway
 - (a) Signs located in a highway sign corridor shall be regulated entirely by the requirements of "The Erection of Signs Adjacent to Provincial Highway Regulations, 1986" or amendments thereto, and subsection (3) shall not apply.
- (3) Signs outside a highway sign corridor
 - (a) Any sign proposed at a location other than a highway sign corridor, may only advertise agricultural commercial uses, or home based businesses, the principal use of an adjoining site or the principal products offered for sale on the adjoining site.
 - (b) A maximum of two (2) advertising signs are permitted on any site, or quarter section and each sign shall be no larger than 3.5 sq. m and no higher than six (6) m in total height.
 - (c) Government signs, memorial signs and directional signs that bear no advertising, including traffic control, no trespassing, hunting restriction and similar signs, are exempt from restriction.
 - (d) Billboard and other off-site advertising signs are prohibited, except in a highway sign corridor.
 - (e) All private signs shall be located so that the safety of the public is not jeopardized, in council's opinion, by the size, lighting, movement or location of the sign.

3.6 Salvage Yards and Vehicle Storage Areas

- (1) Except where specifically restricted in a particular zoning district, no person shall use an area of any site in any district, for the parking or storage outside of an enclosed building of more than five (5) vehicles that are not in running order.
- (2) This section shall not apply to approved salvage yards for machinery, autos or trucks.
- (3) Council may require that such vehicle storage areas be screened from roadways or neighbouring properties by landscape features or fences or a combination thereof.

3.7 Linear Public Utilities

- (1) Subject to Section 3.1, linear public utilities and accessory booster or transformer stations, etc. (excluding offices, warehouses and storage yards), shall be permitted uses in every zoning district. Unless otherwise specified by this bylaw, no minimum site area or yard requirements shall apply.
- (2) Where a linear will cross or lie within the limits of a municipal road, council may apply such special design standards as it considers necessary to protect the municipal interest in the existing and future improvements to the road.

3.8 Home Based Businesses

3.8.1 Home based businesses in the Agricultural and CR districts shall be subject to the following conditions:

- (1) The use is clearly accessory to the use of a farmstead as an agricultural operation or the dwelling unit as a private residence.
- (2) The operator of the business is a resident of the dwelling unit and, in the case of a farmstead only,

up to five (5) non-resident employees may be employed at the site. Where the business is for a building or service contractor, additional employees may be involved only at the clients' building site.

- (3) Except as specified in the required development permit, no variation in the residential or residential farm character and appearance of the dwelling, accessory residential building, or land shall be permitted, except for permitted signs.
- (4) On-site signs shall be permitted according to Section 3.5. Off-site signs not exceeding 0.5 square metres (5 ft²) may be permitted at the discretion of council where necessary to provide directions from a highway to the operation.
- (5) The permitted accessory use shall be valid only during the period of time the property is occupied as the residence of the owner for such permitted use.
- (6) All development permits issued for home-based business shall be subject to the condition that the permit may be revoked at any time if, in the opinion of the council, the conditions under which the permit was originally issued are no longer met.
- (7) Council may also apply special standards in the issuing a development permit limiting the size of operation including, but not limited to, the size and number of buildings used for the operation, or allowing a specified increase in the number of non-resident employees, above that mentioned in subsection (2). Council shall not allow the total number of non-resident employees to exceed 12, including the five (5) allowed under subsection (2). Any home-based business requiring more than that number shall only have the options of relocating its operation to an appropriate zoning district or requesting an appropriate rezoning for the existing property.
- (8) Any increase in the operation as originally applied for or approved shall require a new discretionary approval.

3.8.2 Home based businesses in the CR, CR1, CR2-Country Residential, LS-Lakeshore Development and H-Hamlet Districts shall be subject to Subsections 3.8.1 (1) and 3.8.1 (3) to (8) inclusive and the following conditions:

- (1) Non-resident employees are not permitted in home-based businesses in these districts;
- (2) No heavy construction or industrial equipment or supplies shall be stored outdoors on any site for a home-based business in these districts;
- (3) Council may also apply special standards in the issuing a development permit limiting the size of operation, and buildings used for the operation. Any increase in the operation as originally applied for or approved shall require a new discretionary approval.

3.9 Bed-and-breakfast Homes and Vacation Farms

Vacation farms and bed-and-breakfast homes subject to the following requirements:

- (1) Vacation farms shall be accessory to an agricultural farm operation and located on the same site as a farmstead, and may include bed-and-breakfast, cabins, and overnight camping areas.
- (2) A maximum of five (5) cabins shall be permitted as part of a vacation farm operation.
- (3) On-site signs shall be permitted according to Section 3.5. Off-site signs not exceeding 0.5 square metres (5 ft²) may be permitted at the discretion of council where necessary to provide directions from a highway to the operation.
- (4) Vacation farms and bed-and-breakfast operations may be licensed by the local health district, if so required.
- (5) Bed-and-breakfast operations shall be located in a single detached dwelling unit used as the operator's principal residence, developed as a farmstead or residence; or located in a dwelling accessory to and established on the same site as the host principal residence.
- (6) Council may apply special standards in the issuing a development permit limiting the number of rooms, cabins or camping spaces that may be permitted in conjunction with the operation.

3.10 Restrictions on Development near an Intensive Livestock Operation (ILO)

Despite any other provision of the Zoning Bylaw, no new residential or other use shown in Table 2 of Section 5.4.1 shall be located within the location separation criteria for ILOs (see Part II, Definitions) in that table unless council deems a lesser distance is acceptable using the same criteria in Section 5.3.4 (3) d.

3.11 Restrictions on Development near Solid or Liquid Waste Facilities

Despite any other provision of the Zoning Bylaw, no new residential or other use shown in Table 1 of Section 5.3.8 shall be located within the location separation criteria of that table unless council deems a lesser distance is acceptable using the same criteria in Section 5.3.5(3) d.

3.12 Demolition Permits for Dwellings or Water Wells

An applicant for a demolition permit for a dwelling or water well may be required to fill, grade, fence or follow other special permit conditions for public and environmental safety reasons.

3.13 Water Supply and Waste Disposal

(1) Water Supply

- i) A proven potable water supply shall be available to service all development where water is required.
- ii) Council may require an applicant to provide written proof from a qualified professional or a well driller, that a proven potable water supply of sufficient quality and quantity is available to service the proposed development or subdivision.
- iii) If subsection ii) above is not complied with, or if the proposed development or subdivision may jeopardise ground or surface water supplies, council may refuse a development or recommend refusal of a proposed subdivision.

(2) Waste Disposal

No liquid, solid or gaseous waste shall be disposed of by any development except in accordance with legislation administered by a provincial department, the SWA, the local/regional health district, and this RM.

3.14 Parking and Loading Regulations

3.14.1 Parking Standards

Number of Spaces Required

When any new development is commenced or when any existing development is enlarged, or use changed, provision shall be made for off-street vehicular parking spaces in accordance with the following standards:

Use of Building or Site

Minimum Number of Parking Spaces Required

- | | |
|---|---|
| (1) Dwellings, Mobile Homes, Garden Suites, Guest Cottages | One (1) space per dwelling unit |
| (2) Schools | One (1) space per classroom |
| (3) Churches | One (1) space per 15 seating places plus one (1) space per 20 square metres of the floor area of the largest assembly room in the building. |
| (4) Community Halls and Facilities, Places of Public Assembly, Intensive Recreation Uses | One (1) space per 10 seating places for the public or One (1) space per 10 square metres of gross floor area used by patrons, whichever is greater |
| (5) Boat Launches | Required spaces will be at the discretion of council, based on the site size and vehicle and pedestrian safety considerations |
| (6) Curling Rinks | Eight (8) spaces per sheet of ice |
| (7) Confectionary and Retail stores, banks, personal service establishments, sales, service, rentals or repair shops, home improvement centres | One (1) space per 20 square metres of gross floor area |
| (8) Motels and Hotels | One (1) space per guest room |
| (9) Restaurants | One (1) space per five (5) seats |
| (10) Service Stations | Four (4) spaces per service bay |
| (11) Animal Shelters Service Stations or Veterinary Clinics | One (1) space per 100 square metres of gross floor area |
| (12) All manufacturing, fabricating, warehousing uses; storage buildings, | One (1) space per three (3) employees on maximum |

and yards; handling, loading, distribution, and/or shipping facilities; builders or contractors yards and shops; and other similar industrial or industry-related uses.

work shift but not less than one (1) space per 150 square metres of gross floor area

(13) Medical or Dental Offices or Clinics

One (1) space per 35 square metres of gross floor area

3.14.2 Parking for Non-Residential Uses

Where in this bylaw parking facilities are required for other than detached and semi-detached dwelling units and rooming houses, the following regulations shall apply:

- (1) The parking area shall have visible boundaries and be suitably drained;
- (2) The parking area shall be provided on the same lot;
- (3) The parking area shall be surfaced in the same manner as abutting roadways and be clearly demarcated. The parking area shall also have a minimum width of 2.5 metres and a minimum length of 5.5 metres;
- (4) Approaches or driveways to any parking area shall be defined and the limits of the parking area shall be defined by a fence, curb or other suitable obstruction designed to provide a neat appearance;
- (5) The minimum width of a driveway leading to any parking area shall be 7.5 metres; and
- (6) The location of vehicular approach ramps or driveways at the street line shall be no closer than 7.5 metres from the point of intersection of two property lines at a street intersection.

3.14.3 Parking for Residential Uses

Where in this bylaw parking facilities are required for single detached and bare land condominium dwelling units, garden suites or guest cottages, the following provisions shall apply:

- (1) The parking area shall be provided on the same lot.
- (2) The minimum area required for each parking space shall be 15 square metres, the minimum width 2.5 metres, and the minimum length 5.5 metres.
- (3) The location of vehicular approach ramps or driveways at the street line shall be no closer than 7.5 metres from the point of intersection of two (2) property lines at a street intersection.

3.14.4 Loading Provisions

When any new development occurs or when any existing use is changed, enlarged or increased in capacity, a minimum of one (1) off-street vehicular loading and unloading space shall be provided and maintained in accordance with the following provisions:

- (1) The minimum size for an off-street loading space shall be:
 - (a) for buildings with a gross floor area of 1400 square metres or less, a minimum area of 17 square metres and a minimum width of three (3) metres; and
 - (b) for buildings with a gross floor area of more than 1400 square metres, a minimum area of 33.5 square metres, a minimum width of three (3) metres and minimum clear height of 4.25 metres;
- (2) Loading spaces must be located either within or abutting the building containing the use;
- (3) No loading spaces shall be provided within a minimum front yard;
- (4) Loading spaces provided within the minimum side yard shall be open and uncovered; and
- (5) Every off-street loading space and access shall be hard surfaced if the access is from a street or lane which is hard surfaced. Where hard surfacing is provided or required, it shall be constructed of concrete, asphalt or a similar durable, dust-free material.

3.15 General Development Standards Applicable to All Discretionary Uses in this Bylaw

(1) Upon approval of a discretionary use by resolution of council, the Development Officer shall issue a development permit subject to any development standards prescribed by council which shall be based on the following and Section 52 of the Act:

- Sites shall be landscaped and fenced where necessary to maintain the character and amenity of the neighborhood;
- Adequate on-site parking shall be provided and maintained;
- Parking, storage and other non-landscaped areas shall be suitably screened from adjacent properties and streets;

- Adequate receptacles for refuse and litter shall be supplied;
- Vehicle access points shall be provided in suitable locations so as to minimize traffic congestion and possible hazards;
- The density, size, height and location of principal or accessory structures shall be regulated so as not to detract from the character and amenity of the neighbourhood; and
- Council may attach special conditions to the development permit to regulate sound, light, glare, heat, dust, electrical interference, or other emissions, and limit hours of operation, if in council's opinion, it would detract from the amenity of the neighbourhood.
- Hours of operation

3.16 Permits and Regulations for Non-Farm Accessory Uses

- (1) Unless exempted by Section 2.2.1, all development for a non-farm accessory use to a dwelling shall require a development permit. Unless otherwise exempted in a zoning district, all non-farm accessory buildings, even those exempted by Section 2.2.1 from requiring a permit, shall be required to conform to the front, side and rear yard setbacks of that district.
- (2) Unless otherwise regulated in a residential zoning district, the maximum coverage of all non-farm accessory buildings on a site shall not exceed the ground floor area of the principal dwelling unit on the site.
- (3) Unless otherwise regulated in a residential zoning district, the maximum height of any non-farm accessory building on a site shall not exceed the height of the principal dwelling unit on the site.
- (3) **No accessory building or structure may be constructed, erected or moved on to any site prior to the time of construction of the principal building to which it is accessory unless the accessory building is essential for the completion of the construction of the principal building and where a building and development permit for the principal use has been issued.**

(Passed 4/23/2018 Bylaw No. 340/2018)

3.17 Legal Access for Certain Uses and All Subdivisions

- (1) Development of a farmstead, residence, bed and breakfast home, dwelling group, commercial or industrial use, institutional use, or other non-agricultural development is prohibited unless the site abuts a developed road or the developer agrees to construct the road to council's standards. In the case of a (bare land condominium), only the outer boundary of the dwelling group of the land to be owned by the (bare land condominium) parcel requires physical and legal access, not the separate dwelling units.
- (2) Council shall not be required to recommend a subdivision for approval unless the proposed sites and any unsubdivided remnant of the land being subdivided fronts on a developed road, including any road which is required to be registered and developed as a public road under a signed servicing agreement.
- (3) For the purposes of this bylaw, developed road shall mean an existing, graded all-weather road on a registered right of way, or a road for which a signed servicing agreement has been made with council to provide for the construction of the road on a registered right of way to a standard approved by council.

3.18 Minimum Area for a Dwelling Unit, Dwelling Group Unit or Mobile Home

The minimum allowable area for any of the above residential uses shall not be less than 65 sq. metres (700 sq. feet).

3.19 Garden Suites

Subject to the policies outlined in Section 2.8.2 of the OCP, garden suites are now allowed only in the agricultural zoning district. Upon approval of a discretionary use for a garden suite by resolution of council, the development officer shall issue a development permit subject to any development standards prescribed by council, which shall be based on the following requirements:

- (1) a garden suite shall consist of a removable detached dwelling unit without basement, built on grade, which may be a modular home, but shall not be a mobile home;
- (2) approval of a garden suite shall be for a maximum two (2) year period and this term may be renewed at the discretion of council providing the requirements of this bylaw continue to be met;
- (3) the suite shall not have a separate water supply or waste disposal system, but must rely on the principal dwelling for those services;

- (4) garden suites may only be approved where they would not:
 - change the character of the neighborhood;
 - adversely affect the natural environment;
 - result in any increase in demand on municipal services, or public utilities.
- (5) An applicant for a suite shall be required to sign an agreement with the municipality to ensure that the suite will comply with all bylaw requirements; and
- (6) As outlined in Section 235 of the Act, the municipality shall at its own cost, file a copy of a discretionary use approval as an interest against the title of the land on which the garden suite has been allowed.

3.20 Landscaping and Geotechnical Requirements

As a condition of approval for rezoning from the A – Agricultural District to any other district, or as part of an approval for a discretionary use, council may require the applicant for the rezoning or use to prepare a landscaping plan and/or a geotechnical report for the proposed development, based on and consistent with, the following requirements: the development officer shall issue a development permit subject to any development standards prescribed by council, which shall be based on the following requirements:

- (1) a landscaping plan shall consist of one or more scaled drawings prepared for the site by a recognized landscape architect or other professional consultant (e.g. a geotechnical engineer), showing at minimum, the current and proposed final grades, vegetation types for both the proposed private and public lands and roadways etc.;
- (2) the plan should provide landscaped open areas that are conducive to pedestrian use, safety, and enjoyment without causing road maintenance or geotechnical problems for the RM or a condominium corporation, as the case may be;
- (3) unless restricted by any geotechnical or erosion constraints, parking areas and other non-residential accessory or public or private community uses shall be buffered by landscaping (e.g. berms, separation distances or vegetation) to reduce potential conflicts with adjoining residential uses; and
- (4) mature trees and their root systems, native grasslands and natural drainage systems shall be protected as much as possible during construction, using barricades, fencing or other methods acceptable to council.

SECTION 4 - ZONING DISTRICTS

4.1 Districts

For the purpose of applying this bylaw, the municipality is divided into zoning districts. All parts of the municipality shall be designated as A - Agricultural District except those areas specifically designated on the detailed zoning district map as another district. The districts are;

A – Agricultural;
 CR – Country Residential (dispersed);
 CR 1 – Country Residential (low density);
 CR 2 – Country Residential (medium density);
 H – Hamlet;
 LS - Lakeshore Residential;
 R/R – Recreational Resort;
 HC – Highway Commercial; and
 ES – Environmentally Sensitive Overlay.

4.2 Boundaries

The boundaries of all zoning districts are shown on the maps entitled, "Zoning District Map" which are attached to, and form a part of this bylaw. Unless otherwise shown on the map or specifically mentioned in the text of a particular district in this bylaw, the boundaries of the said districts are site lines, boundary limits of streets, lanes, roads or such lines extended and the boundaries of the municipality.

4.3 Uses and Regulations

- (1) Uses which are not included as a permitted or discretionary use in this bylaw and which do not qualify as a legal non-conforming use as defined in the Act and this bylaw, shall be treated as prohibited uses.
- (2) Regulations for the zoning districts are outlined in the following sections:

SECTION 5: A - AGRICULTURAL DISTRICT

INTENT: to protect high quality agricultural land (defined as Class 1-3 inclusive agricultural land by the Canada Land Inventory {CLI}), the existing economic nature of the RM, the rural lifestyle of its residents, and the natural environment. To implement the foregoing intent in this district, council shall encourage and permit agriculture and agricultural-oriented commercial uses at appropriate sites, if the uses will not conflict with other adjoining uses and which will not be prohibitively difficult or costly to service.

5.1 Permitted Uses

Subject to Sections 3.1, 3.10, 3.11 and other relevant portions of Section 3, the following uses are permitted in this district:

- (1) Agricultural Principal Uses
 - Field crops
 - Pastures for the raising of domestic or exotic birds or livestock, excluding ILO
 - Beehives and honey extraction facilities
 - Minor facilities for the preparation for sale of crops grown by the agricultural operation
 - Fish farming
 - Farmsteads with a maximum of two (2) single detached dwellings or mobile homes (which are discretionary uses) or communal dwellings located on a minimum site of one quarter section or equivalent (minimum 48.6 ha (120 acres)), as allowed in Section 5.3.2 (1)(a) of this bylaw
- (2) Accessory uses and buildings:
 - Farm buildings and structures for a permitted principal agricultural use on the site
 - Facilities for the sale direct to the consumer of crops grown by the agricultural operation
 - Orchards and vegetable, horticultural or fruit gardens, where accessory to a farmstead or existing residence
 - Private garages, sheds, and buildings or structures (including, but not limited to a private swimming pool with the required safety fencing) accessory to any single detached dwelling on the farmstead or separate site approved as a discretionary use
- (3) Industrial resource-based principal uses - including accessory buildings and uses:
 - Petroleum and natural gas exploration wells or extraction wells and related facilities which are not proposed in an ES overlay district
 - Oil, natural gas or carbon dioxide gas pipelines and related facilities which are not proposed in an ES overlay district
 - Metallic or non-metallic mineral mines or extraction facilities
 - Gravel pits, gravel storage areas and contractor's yards, which are more than 0.8 km. from a dwelling (subject to Section 5.3 of the OCP)
- (4) Other principal uses, including accessory uses and buildings, but not including a residence:
 - Churches, cemeteries, public institutional uses and facilities
 - Service utilities, excluding wind turbines and solid and liquid waste disposal site.
 - Public parks, sports fields and other similar uses
 - Wildlife and conservation management areas
 - Linear public or private utilities
 - Municipal facilities

5.2 Discretionary Uses

Subject to Sections 3.1, 3.10, 3.11 and other relevant portions of Section 3, the following uses are discretionary in this district:

- (1) Agricultural principal uses:
 - Intensive livestock operations subject to Section 5.4
 - Intensive agricultural operations, including commercial greenhouses
 - Game farms
 - Controlled hunt farms
- (2) Residential uses (principal and accessory):
 - A maximum of one rectangular subdivision for a CR dwelling or occupied, surplus farmsteads may be subdivided as a principal use on separate sites per quarter section subject to Section 5.3.1
 - One dwelling which is accessory to, and located on the same site as a discretionary use listed in

- Subsections 5.2 (1) or (5)
 - Special care or group homes with a maximum of 12 residents, excluding staff
 - Mobile homes, as allowed by Section 5.1 of this bylaw and Section 5.6 of the OCP
 - The five (5) existing single detached dwellings located on leased, unsubdivided land (locally referred to as H. Flavel Beach), on the SW 26-22-23-2 are hereby recognized as existing discretionary uses at that location
 - The 23 existing single detached dwellings located on leased, unsubdivided land (locally referred to as Belmont Beach) on part of the SE 34-22-23-2 are hereby recognized as existing discretionary uses at that location
- (3) Rural-related industrial and commercial principal uses:
 - Abattoirs, including retail meat sales outlets
 - Agricultural contracting and service establishments
 - Agricultural equipment, fuel, and chemical supply establishments
 - Agricultural product processing including but not limited to, seed cleaning or packaging plants
 - Concrete plants
 - Grain terminals, elevators, and related uses
 - Machine shops and metal fabricators
 - Outdoor recreation facilities
 - Petroleum or mineral processing facilities
- (4) Resource-based principal uses including accessory buildings and uses:
 - Petroleum exploration wells or extraction wells and related facilities which are proposed in an ES overlay district
 - Pipelines and related facilities, which are proposed in an ES overlay district
 - Gravel pits, gravel storage areas and contractor's yards, which are closer than 0.8 km. from a dwelling (subject to Section 5.3 of the OCP)
- (5) Other principal uses:
 - Churches, public institutional uses and facilities, which include residences
 - Airports and private airstrips
 - Service utilities, including solid or liquid waste disposal facilities, wind turbines and soil farms for the rehabilitation of petroleum-contaminated soils
 - Trucking/hauling operations
 - Vehicle storage yards
 - Solid and liquid waste disposal facilities
 - Public or private utilities
 - Recreational commercial uses, including but not limited to, sports arenas, golf courses or campgrounds.
 - Vacation farms
 - Bed-and-breakfast homes
 - Home-based businesses, where accessory to a farmstead or residence, on the same site
 - Major agricultural-related commercial or food processing uses accessory to a farmstead, and located on the same site
 - **Commercial indoor storage** (Bylaw No. 241/13)

5.3 District Regulations

5.3.1 Subdivision

- (1) The subdivision of any land within the agricultural district is subject to the following site requirements, dependent on the type of use proposed, as specified in this section.
- (2) As authorized by Section 5.2(2), and as allowed in conformity with Subsections 5.1 and 5.2 of the plan, a quarter section (or equivalent as defined in this bylaw), which is located within this district, may be allowed to have a maximum of two (2) sites subdivided from it for a principal use. This includes one (1) additional subdivision for a cut-off parcel as described in Section 5.1 of the plan.
- (3) All such subdivisions shall require rezoning to CR1 prior to receiving subdivision approval.

5.3.2 Site Requirements

- (1) Separate sites for a principal use shall comply with the following:
 - (a) As noted in section 5.2 (2) above, and as allowed in conformity with Subsections 5.1 and 5.2 of the plan, a quarter section (or equivalent as defined in this bylaw), which is located within this district,

may be allowed to have a maximum of two (2) sites subdivided from it for a principal use.

- (b) The minimum site frontage for all subdivided sites shall be 30 metres.
- (c) Where a smaller residential site is to be subdivided from a quarter section, the site size shall not be less than 0.8 hectares (two (2) acres) or more than eight (8) hectares (20 acres) in size.
- (d) Except for linear public utilities which are exempt under Section 3.7, where a smaller non-residential site is to be subdivided from a quarter section, the site size shall not be less than 0.8 hectares (two (2) acres) or more than eight (8) hectares (20 acres) in size.
- (e) At the request of the current owner of the site proposed to be subdivided as referred to in subsections (c) and (d) above, council may use its discretion to vary the maximum site size requirement by no more than 50 per cent where the change:
 - i) is requested to include additional land required for water supply or waste disposal systems which exist on or are proposed for the site;
 - ii) is requested to include or facilitate any existing or proposed landscaping, buildings, structures or natural features on the proposed site;
 - iii) is requested to reduce the proposed area in order to more easily manage, landscape, or otherwise maintain or develop the site;
 - iv) would not unnecessarily reduce, or negatively affect the existing use, size, servicing, or access to the balance of the quarter section, or equivalent as defined in this bylaw;
 - v) would not negatively affect the existing use, servicing, or access to any neighbouring land.
- (2) At the request of the current owner of a site proposed to be consolidated with another site to create a larger area for a permitted or approved discretionary use in this district, council may use its discretion to vary the maximum site size requirement where the change would result in a parcel which is closer to the size of the quarter section or equivalent as defined by this bylaw.

5.3.3 Farmsteads

- (1) A farmstead may contain the following, where located on the same or adjoining quarter or equivalent as defined in this bylaw:
 - (a) One single detached or mobile home dwelling for the operator of an agricultural use.
 - (b) One additional single detached or mobile home dwelling for employees or business partners of the operator engaged in the agricultural operation (see Section 5.1(1) and 5.2(2) of this bylaw).
 - (c) Facilities for the winter holding or pasturing of livestock, in lesser numbers than constitute an ILO (unless already approved by the Ministry of Agriculture (MOA) as an ILO).
 - (d) Buildings for permitted accessory uses.
- (2) Subject to the regulations of Section 5.3.2, a farmstead, which contains a residence proposed for subdivision as a separate site, shall contain enough land area to provide its own water supply and waste disposal system.

5.3.4 Building Setback Requirements in this District

- (1) The minimum setback for all buildings (including dwellings), from any road shall be 30 metres (100 ft). (Note: A greater distance may be required by the Department of Highways and Transportation near a provincial highway.)
- (2) Council may reduce the minimum setback (to no less than 15m - 50 ft), where in the opinion of council, compliance with it would be impractical or too costly for the applicant and the reduction is in the public interest.
- (3) Except as may be allowed by council under Subsection (d), no new dwelling shall be located within:
 - (a) the separation distance to an ILO as regulated in Sections 3.10 and 5.4.1, unless the dwelling is owned by the ILO operator;
 - (b) the separation distance to a solid or liquid waste disposal facility as regulated in Section 5.3.7.
 - (c) 305 metres (1000 ft) from a honey processing facility.
 - (d) Council may accept a lesser minimum separation distance to the above operations than required by clauses (a), (b), and (c), as a special standard in the issuing of a development permit, where the applicant submits a written agreement to council between the land owner of the proposed dwelling and the owner of the operation relating to such lesser distance. Council will maintain a register of all such agreements and shall caveat such agreements against the relevant titles pursuant to Section 215 of the Act.
 - (e) 305 metres (1000 ft) to a non-refrigerated anhydrous ammonia facility licensed by the Saskatchewan

Ministry of Corrections and Public Safety (CPS).

- (f) 610 metres (2000 feet) to a refrigerated anhydrous ammonia facility licensed by the Ministry of CPS.
- (4) No dwelling or other building shall be located within the approach surface for any airport or airstrip.
- (5) In the event of conflict between the setback regulations or requirements of any overlay district and those of the underlying zone, the overlay requirements shall apply.

5.3.5 Keeping of Animals on Residential sites other than Farmsteads

- (1) No large animal (horses or cattle) will be allowed on any site which is less than two (2) hectares (five (5) acres). Two (2) large animals will be permitted on a site of at least two (2) hectares (five (5) acres). Four (4) large animals will be permitted on a site of at least eight (8) hectares (20 acres). For each additional 1.2 hectares (three (3) acres), one (1) additional large animal will be permitted. All other animals shall be limited to domestic pets of the residents of the site.
- (2) Animals shall not be pastured within 15 metres (50 ft) of any dwelling not owned by the operator of the pasture or owner of the animals, and no buildings or structures intended to contain birds or animals shall be located within 30 metres (100 feet) of a property line.

5.3.6 Intensive Agricultural Operations

- (1) In the application for an Intensive Agricultural Operation (IAO) (refer to Part II – Definitions), the applicant shall identify the proposed supply of water for the operation where intensive irrigation is required, which supply shall be sufficient to meet the needs of that operation without detrimental effects on the supply or ground water used by neighbouring properties.
- (2) The operation may include a farmstead or dwelling on the same site. No subdivision of the farmstead, dwelling or intensive agricultural operation shall be permitted unless the operation ceases.

5.3.7 Solid or Liquid Waste Disposal Facilities

Development and maintenance of a solid or liquid waste disposal facility as a principal or accessory use shall be subject to the separations contained in Table 1 of this bylaw, and to the following standards:

- (1) A buffer strip containing trees, shrubs or a berm may be located surrounding a solid or liquid waste disposal facility to the specifications established by council in the required development permit.
- (2) Any solid or liquid waste disposal facility may be fenced to a standard as specified by council.
- (3) Development of a solid or liquid waste disposal facility shall also be subject to the following table:

**Table 1: Minimum Separation Distances
Relating to Solid and Liquid Waste Disposal Facilities**

| Other Uses | Solid Waste Facility | Liquid Waste Facility |
|---|----------------------|-----------------------|
| Single residence, tourist accommodation | 800 m | 300 m |
| Intensive country residential subdivision or hamlet or urban municipality | 1.6 km | 600 m |
| Commercial or industrial use | 300 m | 300 m |

(Distances are measured between the fence, berm or edge of the facility (as the case may be) and nearby development)

5.3.8 Home-Based Businesses

- (1) Shall comply with Section 3.8.

5.3.9 Bed-and-Breakfast Homes and Vacation Farms

- (1) Shall comply with Section 3.9.

5.3.10 Commercial Uses

- (1) Where a proposed commercial use will be accessory to a farmstead, council may apply special standards as a condition of discretionary approval limiting the size of operation, buildings used for the operation, and number of non-resident employees.
- (2) An increase in the area of land for a commercial use, or the number or size of buildings used for the

- commercial operation, shall require a development permit subject to discretionary approval by council.
- (3) Council may require special standards for the location, set back or screening of any area devoted to the outdoor storage of machinery, vehicles, or vehicular parts in conjunction with a commercial operation including any salvage or vehicle storage yard.

5.3.11 Campgrounds

- (1) The operator of a campground shall provide the development officer with a plan of the campground, identifying any buildings, uses of land and the location of all roadways and vacation trailer or tent campsites with dimensions. The addition or rearrangement of campsites, the construction or moving of buildings, the material change in use of portions of land, or the filling or clearing of land shall require a development permit, and the operator shall submit for approval an amended plan incorporating the development.
- (2) A campground shall have within its boundaries a buffer area abutting the boundary of not less than 4.5 metres, which shall contain no buildings.
- (3) The operator of a campground shall designate a campsite for each vacation trailer or tent party, which shall be less than 150 square metres in area with its corners clearly marked.
- (4) No portion of any campground shall be located within a roadway or required buffer area.
- (5) Each campsite within the campground shall have direct and convenient access to a developed roadway, which is not located in any required buffer area.
- (6) Each trailer coach shall be located at least 4.5 metres from any other trailer coach, and each campsite shall have dimensions sufficient to allow such location of trailer coaches.
- (7) The space provided for roadways within a campground shall be at least 7.5 metres in width. No portion of any campsite, other use or structure shall be located in any roadway.
- (8) No trailer coach shall be stored on any campsite when the campground is not open.
- (9) A campground may include as accessory uses, a laundromat or a confectionary designed to meet the needs of the occupants of the campsites, and one single detached dwelling for the accommodation of the operator.
- (10) The Public Health Act and the Regulations passed thereunder, shall be complied with in respect to all operations and development of the campground.

5.4 Specific Development Standards for Intensive Livestock Operations in The Agricultural District

5.4.1 Intensive Livestock Operations

- (1) Council is governed by the location policies contained in the OCP, Section 6.6 in the issuing of a discretionary approval for an ILO.
- (2) Any operation involving raising livestock shall be considered an ILO for the purpose of this bylaw if it:
 - (a) requires a permit for an ILO from the MOA under The Agricultural Operations Act; or
 - (b) will, in council's opinion, contain more than 300 animal units which are cattle, horses, poultry, domesticated or exotic game farm animals on a quarter section or less, on a permanent basis; or
 - (c) is an expansion of an existing ILO which has been permitted by the MOA; or
 - (d) involves the alteration of animal species in an existing ILO; or
 - (e) is a game farm or controlled hunt farm which has been permitted by the MOA.
- (3) In considering whether a specific livestock operation should be considered as an ILO for the purposes of subsections (2)(b) or (c), council shall exempt existing or proposed operations from compliance as an ILO if council determines that the operation involves only the temporary confinement of livestock during winter months as part of a mixed farming operation. This subsection shall not apply to any livestock operation considered as an ILO for the purposes of subsections (2)(a), (d) or (e).
- (3) Approval of an ILO shall be for a specific maximum number of animal units specified by council as a condition of the development permit. A new discretionary approval shall be required to expand the ILO, or to substantially alter the species of animals in the operation.
- (4) Council shall require information from the ILO applicant regarding the type, frequency, and technology proposed for, and land location of manure application. If the applicant is proposing to spread manure rather than use alternate means of manure handling or application (e.g. earthen manure storage or direct injection), council may add the following as conditions of the discretionary use:
 - (a) Council may require that the applicant use only the specific areas of cropland or improved pasture

which have been approved for manure application by MOA. Any subsequent change to the location of the manure application areas specified as a permit condition shall also require the prior approval of council, and shall be added as a new condition to the original permit;

- (b) Council may require that the manure which is being spread on the specific areas of cropland or improved pasture which have been approved for manure disposal by MOA, shall not be spread on frozen ground, and shall be incorporated into the soil within 24 hours of spreading, unless incorporation is prevented by adverse weather conditions, in which case incorporation shall take place as soon as practical.

Table 2 – Minimum Separation Distances for Intensive Livestock Operations *

| Table 2 Location Separation Criteria for ILOs from Specific Uses | | | |
|---|------------------------|-------------|-------------|
| Development | Number of Animal Units | | |
| | 300 – 499 | 500 - 2,000 | > 2,000 |
| Dwellings in an Agricultural or CR 1 district, public wells, tourist accommodations, campgrounds, commercial or industrial uses | 300 metres | 800 metres | 1200 metres |
| Multi-parcel residential subdivisions in a CR 2, H, LS or R/R district, vacant residentially zoned land, villages or towns | 1600 metres | 2400 metres | 3200 metres |

Distances are measured between livestock facilities (barns, corrals, earthen manure storage facility or other approved manure stockpile/treatment facility) and any dwelling, which is not owned by the ILO operator, or is in a village or town, or is any other development type shown in the above table.

* refer to Subsection 5.4.1(2) of this bylaw for the minimum size of an ILO, based on the type of Animal Units which it contains and clarification of the difference between an ILO and a grazing operation with temporary winter confinement.)

5.4.2 Non-Intensive Livestock Operations

- (1) Except for the provisions of Subsection 2, all new or expanding non-intensive livestock operations (those which do not require an ILO permit from MOA), including those which are under 300 animal units as shown on Table 2, are prohibited from applying manure within 400 m of a neighbouring dwelling (including the potable water supply of that dwelling) or inside an ES overlay district. The prohibition in this subsection shall not apply to land being used as existing manure application areas by an existing operation which qualifies under this bylaw and the Act as a legal, non-conforming use.
- (2) If the neighbour and the owner of the operation agree in writing to the new location for the manure application within the 400 m distance of the neighbour’s dwelling, council will consider the agreement as part of an application for a discretionary use permit with a condition exempting the operator from this setback requirement. Prior to making a decision on the proposed discretionary use permit, council shall consider the proposal in relation to the soil type, local topography, expected manure constituency and application rates, the adequacy of the proposed separation to reduce odour and nuisance (including any new technology which will substantially decrease the odour or nuisance), and any other matter identified by council. The operator may also be asked to supply a report from a professional agrologist or engineer commenting on the environmental effects of the proposal. The proposal may also be referred to MOA for comment. Where such agreements are made, council shall be a party to the agreement and may use Section 238 of the Act to caveat the agreement to the title of the affected lands. The applicant for the permitted or discretionary use shall pay the full cost of preparing and registering the interest on all affected land titles.

5.5 Development Standards for Existing Discretionary Residential Uses

When any request is made to council for changes to the existing residential uses on the lands described in Section 5.2(2) of this district, the regulations contained in Section 10.4.5 of this bylaw, shall be considered by council as guidelines for any necessary development standards or conditions of approval.

SECTION 6: CR - COUNTRY RESIDENTIAL DISTRICT (dispersed)

INTENT: To allow a limited variety of dispersed, non-farm residential uses on separate sites, which are larger than those sites allowed in the CR 1 and CR 2 districts. These larger sites are intended to accommodate minor agricultural uses such as pasturing and raising large animals or kennels, which are not allowed in the CR1 or CR2 districts. To implement the intent of this district, council shall ensure that new residences will only be allowed at a low density and on sites which avoid slump or flood-prone land and protect the natural environment, particularly the water resource. Such proposals must also not conflict with adjoining agricultural uses, or be prohibitively difficult or costly to service. Council shall refer to Section 5.3.2.2 on page 13 of the OCP in assessing proposed CR subdivisions.

6.1 Permitted Uses

Subject to Sections 3.1, 3.10, 3.11 and other relevant portions of Section 3, the following uses are permitted in this district:

- (1) Residential principal uses
 - Single detached dwellings
 - Modular dwellings
- (2) Recreational principal uses
 - Public recreational uses and buildings
- (3) ~~Accessory uses and buildings~~
 - ~~- Private garages, sheds, and buildings or structures (including, but not limited to a private swimming pool with the required safety fencing) accessory to any single detached or bare land condominium dwelling~~
 - ~~- Public or private utilities, excluding solid and liquid waste disposal sites.~~
 - Accessory uses and buildings
 - Private garages, sheds, and buildings or structures (including, but not limited to a private swimming pool with the required safety fencing) accessory to any single detached or bare land condominium dwelling, but only if the principal permitted use or discretionary use has been established
 - Public or private utilities, excluding solid and liquid waste disposal sites.

(4/23/2018 Bylaw No. 340/2018)

6.2 Discretionary Uses

Subject to Section 3.1, 3.10, 3.11 and other relevant portions of Section 3, the following uses are discretionary in this district:

- Bed-and-breakfast homes, where accessory to a residence, on the same site.
- Home-based businesses, where accessory to a residence, on the same site.
- Public or private utilities, including wind turbines for private electrical generation
- Kennels with more than four (4) dogs or cats
- Special care or group homes with a maximum of 12 residents, excluding staff.
- Outdoor recreation facilities
- Mobile homes (see Section 5.6 of the OCP)

6.3 District Regulations

6.3.1 Subdivision and Site Development Requirements

- (1) A separate site for single detached dwellings (including any approved bed-and-breakfast homes shall comply with the following:
 - Minimum site area - 2 hectares (five (5) acres)
 - Maximum site area - 8 hectares (20 acres)
 - Minimum front yard - 30 metres (100 feet) where development (including accessory buildings) abuts RM and provincial roads. Council may reduce the minimum setback (to no less than 15 m – 50 ft), where in the opinion of council, compliance with it would be impractical or too costly for the applicant and the reduction is in the public interest.
 - Minimum front yard - 15 metres (50 feet) where development (including accessory buildings) is serviced by an internal subdivision road
 - Minimum side yard –six (6) metres (20 feet)
 - Minimum rear yard –six (6) metres (20 feet)

- (2) No further subdivision of the original residential site registered before this bylaw comes into force or sites which are registered after this bylaw comes into force, shall be permitted. Council may at its discretion permit minor lot line adjustments, however, such adjustments shall not create an additional lot.

6.3.2 Keeping of Large Animals on residential sites in this District:

- (1) No large animal (horses or cattle) will be allowed on any existing site which is less than two (2) hectares (five (5) acres). Two (2) large animals (horses or cattle) will be permitted on a site of at least two (2) hectares (5 acres). Four (4) large animals will be permitted on a site of at least four (4) hectares (10 acres) site. For each additional 1.2 hectares (3 acres), one (1) additional large animal will be permitted. All other animals shall be limited to domestic pets of the residents of the site.
- (2) Animals shall not be pastured or kennelled within 15 metres (50 ft) of any dwelling not owned by the operator of the pasture or owner of the animals, and no buildings or structures intended to contain birds or animals shall be located within 30 metres (100 feet) of a property line.

SECTION 7: CR 1 - COUNTRY RESIDENTIAL DISTRICT (low density)

INTENT: To allow a limited variety of non-farm residential uses on separate sites. To implement the intent of this district, council shall ensure that new residences will only be allowed at a low density and on sites which avoid slump or flood-prone land and protect the natural environment, particularly the water resource. Such proposals must also not conflict with adjoining agricultural uses, or be prohibitively difficult or costly to service. Council shall refer to Section 5.4 of the OCP in assessing proposed CR 1 subdivisions for the maximum number of sites and density allowed by the plan for this type of development.

7.1 Permitted Uses

Subject to Sections 3.1, 3.10, 3.11 and other relevant portions of Section 3, the following uses are permitted in this district:

Subject to Sections 3.1, 3.10, 3.11 and other relevant portions of Section 3, the following uses are permitted in this district:

- (1) Highway commercial uses
 - Sales and service of cars, trucks, farm equipment and machinery, farm supplies, mobile homes, recreation vehicles, self – storage facilities (excluding any outdoor storage), building and lumber supplies and uses which in Council’s opinion are similar and will not conflict with uses in an adjoining district.
 - Commercial greenhouses
 - Auctioneering establishments
 - Energy and communication service depots
 - Veterinary clinics
- (2) Automotive service uses
 - gas stations, gas bars, car washes, car and truck washes
 - vehicle repair shops (excluding salvage yards)
- (3) Tourist service uses
 - Hotels, motels
 - Restaurants, fast food outlets
 - Retail stores
 - Recreation facilities including but not limited to theatres, assembly halls, exhibition grounds, campgrounds (excluding mobile home parks), waterslides, batting cages and uses which in Council’s opinion are similar and will not conflict with other uses in this district or with uses in an adjoining district.
- (4) Accessory uses and buildings
 - Private garages, sheds, and buildings accessory to any permitted or approved discretionary use.
- (5) Other principal uses
 - Public or private utilities, excluding wind turbines for private electrical generation, and solid and liquid waste disposal sites.

12.2 Discretionary Uses

Subject to Section 3.1, 3.10, 3.11 and other relevant portions of Section 3, the following uses are discretionary in this district:

- (1) One dwelling unit within or attached to a permitted use. Subdivision of the dwelling from the principal commercial use shall be prohibited.
- (2) Outdoor storage areas or compounds

12.3 District Regulations

12.3.1 Subdivision and Site Development Requirements

- (1) Separate sites for the permitted uses in this district shall comply with the following:
 - Minimum site area – 0.4 hectares (1 acre)
 - Minimum site frontage 30 m. (100 ft.)
 - Minimum front yard – along provincial highways, at provincial regulations, otherwise 15 metres (50 feet). Council may exempt a proposed development from this requirement or reduce the minimum setback, where in the opinion of Council, compliance with it would be impractical or too costly for the applicant and the exemption or reduction is in the public interest.
 - Minimum side yard -6 metres (20 feet)
 - Minimum rear yard -6 metres (20 feet)

- All outdoor storage areas or compounds shall be screened from view, and shall require the approval of Council to ensure that they will be safely located and do not conflict with other uses in this district or with uses in an adjoining district.

SECTION 13: ES – ENVIRONMENTALLY SENSITIVE OVERLAY DISTRICT

INTENT: To protect ES land from unsuitable development. Council recognizes the importance of protecting an adequate supply of surface and groundwater for the benefit of all residents and landowners. There are certain other areas near waste disposal sites, sewage lagoons, wetlands or gravel pits, for example which should not be developed due to hazards like potential pollution of water supplies, flooding or site instability. Council shall use the following list and regulations in making decisions on proposed new developments in or near environmentally sensitive land.

13.1 Permitted Uses

In addition to the uses allowed in the Zoning District, which underlies the ES district, the following are permitted uses:

Principal uses, including accessory uses and buildings, but not including a residence:

- Cemeteries, institutional uses and facilities.
- Public parks and public recreational facilities.
- Historical and archaeological sites, and wildlife and conservation management areas.

13.2 Discretionary Uses

- Radio, television and microwave towers.
- Public or private utilities, excluding wind turbines for private electrical generation, and solid and liquid waste disposal sites.
- Municipal facilities.

13.3 District Regulations

All the Regulations of the district, which underlies the ES district, shall be used by Council as a guideline in establishing conditions, which may be applied to location-sensitive Development Permits for the specific use being requested.

13.4 Areas within the ES Overlay District

Council shall use Section 3.1 on Page 5 of this bylaw in dealing with requests for new development on or near environmentally sensitive lands in this overlay district.

13.5 Method of Application

Council shall use Section 3.1 of this bylaw in dealing with requests for new development in this overlay district.

SECTION 14: CONTRACT ZONING

INTENT: Council shall consider the nature and intensity of the surrounding uses to avoid or minimize land use conflict when investigating a rezoning proposal for a new contract zoning area. Prior to approving a rezoning for a new contract zone, Council shall also consider whether any environmental, servicing, or public safety problems would result due to the intended uses anticipated in the contract.

- (a) Council shall be bound by the requirements of Section 69 of the Act and the Guidelines for Use of Contract Zoning (see Section 9.7 of the OCP).
- (b) Council shall ensure that the land use in a proposed contract zone benefits the RM and is consistent with other policies of the OCP.
- (c) In negotiating Agreements for contract zones, the parties to the Agreement may consider the possibility of developing a mix of compatible land uses in the area, and may introduce new forms of development, provided that the Contract terms conform to other parts of this Section, and Section 9.7 of the OCP, and that land use conflict with surrounding uses would not result
